All Foreigners to be Expelled from Japan.

HALIFAX, Tuesday, Sept. 1.

The steamship *Africa*, Capt. STONE, from Liverpool, at noon on the 22d, *via* Queenstown on the 23d of August, arrived here at 12½ o'clock this afternoon. Her dates are three days later than those already received.

The *Africa* has 48 passengers for Halifax and 71 for Boston.

The steamship *Hammonia*, from New-York, arrived at Southampton on the night of the 20th of August.

The steamship *Scotia*, from New-York, arrived at Queenstown at 7 o'clock on the morning of the 21st, and at Liverpool early on the morning of the 22d of August.

The *Africa* makes the following report: Aug. 30, in lat. 47° N., lon. 50° 57' W., at 11:30 A. M., passed the steamship *China*, bound East.

THE MEXICAN QUESTION.

The United States Consul at Frankfort had displayed the Mexican flag.

The *Europe*, of that city, explains that it was in pursuance of an arrangement by which in case of the overthrow of republican authority in Mexico, President LINCOLN would allow Mexico to be represented in foreign countries by agents of the Washington Government.

The *Europe* refers to the fact that in March last Secretary SEWARD declared that President LINCOLN and his Cabinet would never tolerate a monarchial government in Mexico, and it anticipates an immediate war if the Emperor of France does not confine himself to the demand for indemnity and leave Mexico a republic.

GREAT BRITAIN.

Nothing is known of the movements of the Confederate privateer *Florida* since she was last seen off Tuscar, on the evening of the 20th of August. Speculations have been afloat as to the object of the *Florida's* visit to British waters. One report is, that it was for the purpose of taking on board Mr. MASON, who is about to return to the South. Mr. MASON, it is announced, had gone to Ireland on a visit to Earl DONOUGHMORE.

It was announced by the last steamer that the ship *Eagle* had arrived at Liverpool from Bermuda with the silver bars taken out of the American ship *B. F. Hoxie* by the *Florida*. The *Shipping Gazette* says it is reported that the silver bars will be restored to the original consignees. The silver was shipped by an English house and insured in London to the full amount. It is also stated that the commander of the *Florida*, on hearing of this fact, resolved to restore it to the rightful owners.

The London *Times*, of the 22d of August, publishes long extracts from the correspondence between the Governments of England and America, touching restrictions on trade between the Northern ports of the United States and the Bahamas.

The *Army and Navy Gazette* says:

"It is gratifying to know that the Government is not blind to the danger of difficulties with America, nor is it indifferent to the perils of a rupture, which we trust the good sense of all respectable Americans will aid us in avoiding."

The same journal adds:

"It is with no wish to flatter the great republican tyranny which is now raising its head on the North American Continent, that we again record our conviction of the ultimate success of the military means the North has set to work to crush the heroic efforts of the South. If Gen. LEE is now able to give one knock-down blow to the Federals, and seize Washington, or even if he should utterly rout the Army of the Potomac, the effect will be so great that another year will be gained, and with it who knows what gain may be obtained for the Confederates? But should Gen. LEE remain inactive, or permit the Federal armies to sweep round into his rear—to flood the Confederacy and overlap all his communications—Richmond may become a mere '*Caput mortum*,' and the South and all be lost."

The London *Globe* regards peace as still distant, but the issue not doubtful. It says that the South may be mangled and exhausted, but must win in the end, temporary defeats to the contrary notwithstanding.

The Confederate Loan on the 21st of August rallied one per cent., closing at 28@26.

Notwithstanding the expressed wish of Lord CLYDE for a quiet funeral at Kensal Green Cemetery, the Government decided to honor his remains by depositing them at Westminster Abbey in the most unostentatious manner.

The telegraph cable between Malta and Alexandria was broken a few weeks since by an anchor in shallow water near the shore; but the damage was quickly repaired and it is again in perfect order.

FRANCE.

An important decree has been published condemnatory of the letters of the Bishops on the subject of elections, and declaring them an abuse of ecclesiastical authority. The decree declares that the Bishops and Archbishops are now empowered to deliberate together or pass common resolutions without special permission from the Government.

M. DROUYN DE LHUYS was to leave Paris for London on the 22d of August.

The Rentes closed, on the 21st of August, at 69f. 35c.

The King of Saxony had returned from his mission to the King of Prussia, who repeated his refusal to be present at the Congress, on the grounds already communicated to the Emperor of Austria.

Draft in the Third District.

FOURTH, FIFTH AND SEVENTH WARDS COMPLETE.

The drafting in the Third Congressional District, Capt. STEPHEN B. GREGORY, Provost-Marshal, was resumed yesterday morning at 9 o'clock.

The military guard of Minnesotians was under command of Capt. HEFFELFINGER, while Capt. JOEL SMITH, with the force of the Forty-first Precinct and 100 men from New-York, were on duty under direct charge of Inspector FOLK. Lieut. BARGER, N. Y. Vols., Aid-de-Camp to Col. NUGENT, superintended the draft, as the official representative of Col. FRY.

At 9 o'clock Capt. GREGORY announced that the draft would be made to fill the quota of the

FOURTH SUB-DISTRICT.

which includes the Fourth Ward. Messrs. VAN BRUNT, TAYLOR and DEAN were appointed a Committee to count the ballots. They announced the whole number to be 1,554, of which 369 were to be drawn as the quota for the District, with the additional fifty per cent.

Mr. CORNEY turned the wheel, the blind man, Mr. WINTRESS, drew the ballot, and Commissioner BEEBE, in a clear and distinct voice, called out the name of

JOHN D. GLASS, Fulton-av. and Pearl-st.

Mr. GLASS is probably a well-known man in his District, for the announcement of his name was greeted with loud shouts and bursts of merriment.

Alderman MURPHY, of the Sixth Ward, and Mr. SECOR, one of the celebrated firm of SECOR & Co., the Monitor and iron-clad builders, were among the conscripts. About midway in the proceedings the door of the wheel flew open and let many ballots fall upon the floor. The interruption was, however, only momentary.

EIGHTH WARD.

The Third Sub-District is bounded by Flatbush-avenue, the city line of Brooklyn, Third-avenue, First-street, Gowanus Canal and the shore of the river as far as the New-Utrecht line, and the Special Committee chosen to count and examine the ballots was composed of Alderman TALLMADGE, Supervisor McGRATH and Messrs. SHERMAN and DANIELS; the arrangement being that an Alderman and Supervisor of each Ward should be present to perform such duty. 909 ballots were put in the wheel, 133 to be drawn.

The drafting was quietly and pleasantly concluded between 5 and 6 o'clock, and the throng dispersed as though nothing whatever had happened out of the usual tenor of daily life. The Marshal took occasion to congratulate all present upon this agreeable result. Lieut. BARGER, of Provost-Marshal NUGENT's Staff, was present on behalf of his superior officers, all day, and has the thanks of the Press for his attention to their comfort. Several of the Metropolitan force were likewise especially obliging, and deserve mention. The draft recommenced at 9 o'clock yesterday morning.

The Second District Continued.

The conscription in the Second Congressional District was resumed yesterday morning at the office of the Provost-Marshal, No. 26 Grand street, Williamsburgh, for the drafting of the quota of 1,027 men from the Tenth, Twelfth and Fourteenth Wards of Brooklyn. The several quotas were:

Tenth Ward quota, 321, 50 per cent., 161—482
Twelfth Ward quota, 137, 50 per cent., 66—202
Fourteenth Ward quota, 228, 50 per ct., 114—342—1,027

The crowd present was not large, and seemed composed mainly of workingmen, sober and orderly in their demeanor, and in some instances evincing considerable anxiety as to the proceedings of the day. A force similar to that of the day previous, of both military and police, were near at hand to quell any disturbance which might have arisen, but a display of power was avoided by the authorities.

The Tenth Ward Fifth Sub-District stood first to be drawn. A Committee was chosen to count the ballots before placing them in the wheel, consisting of Alderman NODYNE, Supervisor HAZARD, Ex-Assemblyman THOMAS, Mr. S. FROST and Ex-Alderman HINMAN. The count having proven correct, and this fact announced by Alderman NODYNE, the draft proceeded in the usual manner.

OBITUARY.

Hon. Luther Bradish.

From Newport, R. I., we have the sad intelligence of the death of Hon. Luther Bradish, of this City. Mr. Bradish was the son of Col. John Bradish, and was born on the 15th of September, 1783, at Cummington, Hampshire County, Mass. In the year 1800 he entered Williams College, and in 1804 graduated from that institution as Bachelor of Arts. The institution subsequently honored him with the degree of Doctor of Laws. He entered the profession of law in this City, and soon after his admission to the Bar he embarked at New-York for the West Indies and South America. From thence he sailed to England, visited Scotland and Ireland, and returned to New-York shortly before the war of 1812, in which he served as a volunteer. In 1814 he married Helen Elizabeth Gibbs, daughter of the late George Gibbs, of Newport, R. I. In 1816 he had the misfortune to lose his wife and only child, a son. In 1820, with a view to make himself acquainted from personal observation with the country and the commerce of the Levant, and for the purpose of collecting and communicating to the Government of the United States information preliminary to the establishment, by treaty, of amicable and commercial relations with the Sublime Porte at Constantinople, he embarked at Norfolk on board the United States ship-of-war, the *Columbus*, 74, Commodore Bainbridge's flag-ship, bound for the Mediterranean. Joining the United States squadron at Gibraltar, the combined squadron proceeded to make the circuit of the Mediterranean, touching at the principal ports on the European and African coasts. Returning to Gibraltar, Mr. Bradish went to Smyrna by the dispatch vessel of the squadron, and afterwards spent five or six months in Constantinople and the vicinity, making investigations pertinent to the object of his mission. Subsequently he traveled through Egypt, Turkey, Hungary, Austria, Russia, Poland, and indeed all the countries of Europe, returning to this country after an absence of six years. Soon after his arrival here Mr. Bradish removed to Franklin County, N. Y., then little more than a wilderness, his object being to bring into market the lands in the town of Moira, in which he had a large interest. In 1827 he was elected to represent the county in the Assembly, and was reëlected for the two succeeding years. In 1830 he was nominated as a candidate for Congress, but the anti-Masonic movement having weakened the party with which Mr. Bradish acted, he was defeated, and remained in private life until 1835, when he was again chosen to the Assembly and remained a member until 1838, when he was chosen Speaker. In the Autumn of that year he was elected Lieutenant-Governor of the State, and again in 1840. In 1842 he was the Whig candidate for Governor, but was not elected.

Since 1842 Gov. Bradish has remained in private life, with a single exception, when he acted as United States Assistant Treasurer for New-York, under President Fillmore's appointment. His time during the period named has been actively devoted to educational, reformatory and charitable institutions. In 1844 he was elected first Vice-President of the New-York Historical Society, and on the death of Hon. Albert Gallatin was elected its President. In 1847 he was elected a Vice-President of the American Bible Society, and on the decease of Hon. Theodore Frelinghuysen, was elected President of the Society. During the present season Mr. Bradish had spent some time at Sharon Springs, whence he came to this City on the first Thursday in August, to attend the meeting of the American Bible Society. At this meeting it was noticed that in rising from his seat to put a question, he manifested more feebleness than on any former occasion, although his spirits seemed good, and he conversed with his accustomed cheerfulness. A daughter and his second wife survive Mr. Bradish.

By a curious coincidence the *Eclectic Magazine* for September contains a portrait of the late Mr. Bradish, accompanied by a detailed sketch of his life, and it is to this that we are indebted for the facts which we have briefly sketched above.

American Vessels Under Foreign Flags.

To the Editor of the New-York Times:

As there is considerable controversy in respect to the probability of Congress passing a law affecting vessels which have been placed under the flags of foreign countries, for the purpose of avoiding capture by rebel cruisers, and in order to avail themselves of the highest rates of freight, I, as a largely interested party, suggest that for the benefit of the public it be given out what is the probable course of our Government in the matter.

TUESDAY, Sept. 1—P. M.

The market for Stocks to-day is unusually feverish. The prevailing disposition of the Street is to realize on purchases made yesterday and at the close of last week. The solution of this feeling is that Money is active among the Stock Brokers at 7 ₩ cent. as the rule of the Street, and that fresh orders for a further upward movement in the market have been discouraged by the difficulty of placing Stocks under hypothecation, even with the most liberal margins. Another difficulty encountered is in the circumstance, felt to-day as well as yesterday, that the leading *Bull* firms on the Street are doing more business than they can promptly provide for within reasonable Bank hours; their checks being held in abeyance until nearly 3 o'clock. The prices on the Railway shares at the early Board were 1@1½ ₩ cent. lower than on Monday night, and although the bidding was something firmer on the Street between the Boards, the actual sales at the Second Board were the lowest of the day. On the Street, and at the 4 o'clock Public Board, the inclination was to sell at the reduced prices, and the general market closed unsettled. The following figures were quoted in comparison with Monday night. The average decline on the Railways is about 2 ₩ cent.

The rates of Money to the Stock Brokers range 6@7 ₩ cent., with more done at the outside figure than at any time during the present speculative excitement. Some of the leading *Bull* firms of the Street paid 7 ₩ cent. without hesitation. The receipts at the Treasury for the Popular Loan amount to $540,550, for which $256,050 was paid in on account of the Loan Agency. The price of Gold Coin left off 127 ₩ cent., the same as yesterday, and Exchange on London 139½@139¾ ₩ cent.

The day's business at the Office of the Assistant Treasurer of the United States, New-York, was as follows: Receipts, $1,207,589, including for Customs, $198,586; payments, $1,121,199; balance, $25,360,413.

The following bids were made to-day for the City Bank Shares:

MR. FITZ GERALD NOBLE, late with Messrs. H. G. STEBBINS & SONS, No. 48 Exchange-place, has been admitted to membership at the regular Board of the New-York Stock Exchange.

The Stock Exchange Board have admitted to their official dealings the Preference Shares of the reorganized Marietta and Cincinnati Railway Company. The Company have constituted the United States Trust Company their Transfer Agents in this City, and notice is given that holders of the Stock desiring to do so, can now have it registered in New-York.

The 6 ₩ cent. New-York City Bonds, one year to run from this date, and advertised by Mr. BRENNAN, the Comptroller, are unquestionably a safe and most desirable temporary investment. The two million ordinance, under which the Bonds are issued, was passed by the Board of Supervisors, with proper guards, in due course of business and approved by the Mayor, and will undoubtedly be legalized by the next Legislature, if, indeed, any doubt should be entertained as to the existing authority of the Supervisors and Mayor on the subject. It is a matter of public congratulation that the proceeds of this Loan are to be honestly administered and properly disbursed; which is far more than could have been said for the three million ordinance passed by the City Councils and arrested by the veto of the Mayor.

The week's exports of Domestic Produce and Miscellaneous Goods (exclusive of Specie) were to the value of $2,936,164, against $2,509,776 same week last year, and $2,705,547 the corresponding week of 1861.

The aggregate of the Philadelphia Banks at the last weekly statements show the following changes, as compared with last week:

Decrease of Loans	$80,338
Increase of Specie	259
Increase of Deposits	219,220
Decrease of Circulation	30,747
Decrease of United States Notes	361,814

NEWS OF THE DAY.

THE REBELLION.

Lee's rebel army, according to the best attainable information, is very much scattered. It is said to occupy the country from the line of the Blue Ridge on the west to Port Royal, on the Rappahannock River below Fredericksburgh, on the east. Ewell is believed to command the left, A. P. Hill the centre, and Longstreet the right. Stirring news may be expected soon from the Rappahannock, as an expedition has been fitted out to recapture the gunboats *Reliance* and *Satellite*, now in possession of the rebels at Port Royal.

A report was current in Washington yesterday that a portion of Longstreet's force crossed the Rappahannock at Port Conway on Monday, for the purpose of flanking Gen. Meade, but there was probably no foundation for it.

A dispatch from Fortress Monroe, published this morning, gives our version of the late expedition to Bottom's Bridge, which created such a panic in Richmond. The force on the expedition was a detachment of Gen. Wistar's cavalry. It left Williamsburgh on the 26th ult., and marched directly to Bottom's Bridge, where a regiment of rebel infantry was found in rifle-pits, supported by a squadron of cavalry. The rifle-pits were carried by a charge, and the rebels driven across the bridge, a portion of which they took up behind them, and thus rendered it impassable. Our loss was one man killed and one wounded. We captured five rebels and killed and wounded a number. Our troops then returned.

We have the report from an escaped prisoner from Little Rock, Ark., that Kirby Smith and Price are there, in command of some 40,000 men, many of whom are conscripts, and only half armed. The rebels are said to be erecting fortifications thirteen miles below Little Rock. There is a report, also, that our forces under Gen. Blunt are marching on Arkadelphia.

A report comes to us from Fort Gibson, by way of Leavenworth, that Gen. Blunt, with 6,000 men and 12 pieces of artillery, crossed the Arkansas River on the 23d ult., but that the enemy, 25,000 strong, declined battle and fell back. Another report, from Fort Scott, is to the effect that Gen. Blunt was defeated on the 28th, with the loss of 3,000 men. Probably neither report is true.

FROM EUROPE.

The steamship *Africa*, which arrived at Halifax yesterday, brings advices from Europe three days later. She left Liverpool on the 22d, and Queenstown on the 23d of August. The news is interesting. The United States Consul at Frankfort had displayed the Mexican flag. An explanation of this is given in the *Europa*, published in that city, which states that President Lincoln has authorized the representation of Mexico in European countries by United States agents. The London *Times* publishes the official correspondence between our Government and Great Britain regarding interference with the Bermuda trade. The closing letter is from Earl Russell to Lord Lyons, dated the 18th of July, in which the latter is instructed to address a fresh remonstrance to our Government—a previous one having failed of the desired effect. Nothing more was known of the movements of the pirate *Florida*. A report was current that the object of her visit was to take on board Mr. Mason, the rebel Envoy to England, and convey him home. The rebel cotton loan, on the 21st, realized one per cent. In France, an important decree has been published condemnatory of the letters of the Bishops on the subject of elections, and declaring them an abuse of ecclesiastical authority. Polish affairs appear to be without change. Nothing relative to the presentation of the notes of the three Powers to Russia had transpired. The King of Prussia still declined to be present at the Congress of the German Princes. Later news from India and China is interesting. The Chinese Imperialists had attacked Nanking, and had captured the outworks. The Japanese had paid the indemnity demanded by England, and the Mikadado had issued orders to expel all foreigners, and to close the Japanese ports. The great earthquake at Marita is said to have caused a loss of $40,000,000. The body of Lord Clyde had been deposited in Westminster Abbey, with appropriate ceremonies. The Liverpool Cotton market is reported buoyant, with higher prices. Breadstuffs were generally tending downward, and Provisions were quiet. Consols were quoted at 93⅛@93¼ for money.

GENERAL NEWS.

The Union State Convention meets at Syracuse to-day, and bids fair to be very numerously attended. A large number of delegates arrived at Syracuse yesterday, and last evening an active canvass was going on for the organization. Among those named for President are Mayor Opdyke, Senator Morgan and John Folger.

The Vermont State election took place yesterday, and of course resulted in an overwhelming Union success.

Maj.-Gen. E. O. C. Ord passed through Wheeling on Sunday last, *en route* for his command, which is now on the Lower Mississippi.

The Stock market was two per cent. lower yesterday than on Monday on the Railway Shares. The demand for Money was sharp at 6@7 per cent. Gold steady at 127 per cent., and Exchange on London 139¼ per cent.

Business in Breadstuffs, yesterday, was on a less extensive scale. Corn and Oats were dearer. Provisions were in moderate request; Pork tended downward. Cotton was more sought after, at advanced prices. A fair inquiry prevailed for Fish, Hay, Hides, Hops, Sole Leather, Sugars, Tallow and Whisky, at buoyant rates. Wool and Tobacco were attracting more attention. Moderate transactions were reported in Candles, Chemicals, Dyewoods, Fruit, Laths, Lime, Molasses, Rice, Soap and Metals. Freights were quiet.

The Live Stock markets have been quite brisk this week, the cooler weather, the return of citizens, and the numerous regiments of soldiers encamped in the City and vicinity, all increasing the demand for meats. Butchers have had a lively trade, and were completely "cleaned out," and on [illegible] bought freely. The 4,122 bullocks yarded at Forty-fourth-street were mostly sold by noon. There was little done in the afternoon, and the remnants of droves were sold out on Tuesday forenoon. Large sales have been made at Bergen and in Sixth-street, making a total of 5,820 for the week. In ordinary times this would be a very large number, but just now all the cattle received are quickly bought, and more called for.... Sheep are in short supply, though nearly 13,000 have come in during the week. They are selling quickly, especially fat lots, for which 5¼c.@5½c. ℘ lb., live weight, is readily paid; and 5¾c. when the best animals are selected.... Live hogs number only 6,543 for the week. Twice that number could have been readily sold. The weather favors pork eating, and the demand has carried prices up nearly 1c. ℘ lb. Corn-fed hogs are selling as fast as they arrive at 5¾c.@6c. ℘ lb., live weight, and still-fed at 5¼c.@5½c.

Maximilian's Acceptance of the Mexican Crown.

It is at last officially stated that the Austrian Archduke Maximilian has definitively accepted the throne of Mexico for himself and his descendants. This announcement takes no American by surprise, for it has long been perfectly manifest that there could be no other sequel. Every French act in Mexico has betokened a systematic carrying out of a programme thoroughly settled in advance. Even so long ago as when the French Emperor put forward the Jecker claims as his pretext for invading Mexico to secure indemnity, it was morally certain that his real object was the establishment of a throne; and that necessarily involved a previous selection of some fit person to occupy it.

Indeed we are now told by the best authority, the *Memorial Diplomatique*, that "the first overtures made to the Court of Vienna touching the candidature of the Archduke Maximilian to the throne of Mexico, dated from the month of October, 1861!" This was *three months before* the landing of the French at Vera Cruz. These overtures, it is stated, were of a "confidential" character, and from the French Emperor. The Austrian Court at once declared that it had no objection to the arrangement, and the Archduke himself engaged to take the place on certain conditions; of which conditions the only one yet made public was that "the reëstablishment of the monarchy in Mexico, as well as the election of the Prince as future Emperor, shall emanate from the spontaneous movement of the country." This condition, it is claimed, is met by the vote of the notables last month, that "the Imperial Crown of Mexico be offered to His Imperial Highness Prince Ferdinand Maximilian, Archduke of Austria, for him and his descendants."

Here, then, the whole key of Napoleon's operations in Mexico is exposed without reserve. From the beginning the enthronement of an Austrian Prince in Mexico, subject to his influence, and bound to his interests by certain secret conditions, has been his sole object. All of his pretensions about seeking the payment of French debts and reparation for French injuries, have been intended simply to throw dust in the eyes of the world. He has steadily wrought out a Machiavellian scheme of deception, and has fitly given it its finishing touch in this vote of the "Notables," who were simply a parcel of Mexican Jesuits and renegades, nominated by Forey to do the Emperor's work, and who were sufficiently shameless to put forth the monstrous assumption that they were the true representatives of the Mexican people. No man who has studied the history and character of the French Emperor can feel the least surprise at the mingled audacity and duplicity with which this plan was conceived and wrought out. The only real wonder is, that the British Government should have ever dared to coöperate with it—as it did all through its early stages. England and Spain combined with France in the first expedition against Mexico. The Governments of both of these nations must have known the previous arrangement between Napoleon and Maximilian, and yet both joined Napoleon in the demonstration—putting forward, as he did, trumped-up claims and grievances as a stalking-horse behind which the fatal work might finally be accomplished.

That Spain should have joined in this conspiracy is not so strange. As a Catholic sovereign, of great devotion to her Church, Isabella would naturally take a deep interest in the restoration of the overthrown clerical party, and in the enthronement of a prince over the old revolted colony of Spain, who should secure the perpetuity of her religion. Besides, she had indemnification, in a substantial shape, by being allowed to seize upon Dominica, and making it once more a Spanish possession without a shadow of right. It is easily understood how the Spanish Government should have been influenced to lend itself, as it did, to the imperial plot. But it is amazing that the British Government should have ever been induced to play such a degrading *rôle*. The willingness, or eagerness if you please, of that Government to raise a barrier against the further progress of the United States, is not in itself a sufficient explanation. There was an England once, that whatever her jealousy of any foreign Power, was yet too proud to stoop to any such work as this to gratify that jealousy. The only solution is to be found in the fact set forth with such conclusiveness and vividness by Kinglake, in his history of the "Crimean War," that the English Government, through fear, has become the pliant servitor of the Emperor, and lends itself to his wishes with very little regard to the demands of honor or justice. The very circumstance that the Palmerston ministry has permitted this scheme to be carried out to its final consummation without protest or a word of disapproval, is proof that nothing has occurred which it did not understand and acquiesce in at the time when the tripartite treaty was framed.

The secret conditions with which the Austrian Archduke takes the Mexican throne will of course remain secret. But there need not be much doubt about their character. We may safely assume that one of the primary ones is a guarantee that the new empire shall be sustained both against civil revolution and foreign attack. Maximilian has the name of being an intelligent and sensible man; and it cannot be supposed that he has not taken into account the fact that the great mass of the present generation of Mexicans must remain republican in spirit, as they ever have been, and that it would be impossible for him to sustain himself for any length of time against revolution, without the Emperor's protection. He also must know that the Monroe doctrine is one of the fixed policies of the United States; that this Republic will never recognize his rule, and that it will surely, sooner or later, put forth its gigantic power against him. It is certain, then, that he goes to Mexico, relying upon the potentate who made him, to protect him. In other words, there is an express stipulation that Mexico shall be garrisoned with a large French army, and that all the resources of France shall be subject to his call, if he is put in peril. We think that if Maximilian had been a wiser man, he would have looked still further to his security. He makes too much, we fear, of Napoleon's success in bolstering up the Papal Government against Roman revolution and the geographical necessities of the new kingdom of Italy. The Mexican people, in spite of all their past misfortunes, are stronger than the Roman people; and the United States is a stronger nation than the Italian nation; and what is of far more consequence yet, Mexico is four thousand miles from France, and not four hundred.

Our people, for the present, will find wholesome diversion from their present serious work in glancing at the process of getting the new dynasty fairly on its legs. It is a rare spectacle on this side of the world, and, in all probability, will never occur again to the end of time. It is comedy before tragedy, but we must e'en take it as it comes.

Puzzles for the Times.

There are a number of things which have been either solemnly promised us ever since the war began, and are still not forthcoming, or which, after we had enjoyed them for a brief period, have mysteriously disappeared, to which we think it is but right the attention of the public should be called. We should like to know, in the first place, what has come of that army that was to be raised in the North to fight the battles of the South, whenever the war broke out, and which a Mozart Hall politician offered to raise and lead himself on receipt of $100. Where did it march to? Who saw it going off, and what has been its fate? Is it not extraordinary that in a country so saturated with publicity as this, a work such as that was, or was to be, should have vanished into obscurity without as much as furnishing an "item" to a newspaper?

What has come of the masked batteries which played such a part in all the earlier actions? Why are batteries not "masked" now? Has the blockade anything to do with it, in enhancing the price of mask materials? Where is the sanguinary outburst of ferocity to which the South was to treat us whenever we attempted to emancipate their slaves, and the hoisting of the black flag, and refusal of quarter, &c., which were sure to follow the arming of negro soldiers? Where is that great negro insurrection which was to begin as soon as we attempted to meddle with slavery? Where are the burning houses of our "Southern brethren" that negro hands were to kindle? and where are the bodies of the Southern ladies that the infuriated blacks were to rip up and prostitute? It is high time these horrors should begin if they are to begin at all. Further postponement will only breed disappointment. And why do the negro soldiers not all run away in action as it was well known they would? Why do they not yell with terror on coming in sight of the enemy, and upset everything behind them in their flight? Why do the Confederates use cannon and musketry against them when "it is well known" that big whips are all that would be needed to rout and disperse them? Why does the West continue to fight, when, according to Mr. Mahony and Mr. Vallandigham, it has been long disgusted with the war and its management? Why has the Union not been reconstructed, leaving New-England out in the cold, when it is well known that this is just what all the other States most desire? What has come of the "political information" which that Society which was clandestinely organized at Delmonico's last Winter, was "to diffuse?" Has it been "diffused," and if so, what have been the most notable results?

We should also like to know what has come of the great National bankruptcy, on the verge of which, according to the best Democratic authority, we stood last November? Why is the Nation not bankrupt? Why, if we owed more than we or our posterity could possibly pay, last January, are our notes worth twenty-five per cent. more in gold than they were then? How is it that there was only one military genius who could save the United States last Spring, and that though he still remains in private life, the United States are still safe? How is it that the Army of the Potomac was determined to fight under nobody but him, and yet fought under both Hooker and Meade? How is it that army did not break up and disband after the Hon. James Brooks had solemnly released it from its allegiance last Fall? And finally, how is it that, although the war, we are told, is the work of a small clique, and carried on solely for the benefit of contractors, the whole Nation supports it, if not with its hands and pockets, at least with its lips?

A New Element for West Point.—It seems that the President has determined to fill the Cadetships at West Point that are left vacant by the operation of the rebellion by the appointment of deserving young men from the army. Gen. Grant has received orders from Washington to send in the names of soldiers in his army who are of the proper age and qualified for the position; and examinations of candidates are being made by Gen. Sherman. This is an excellent idea. Those who are chosen will combine every element of success, as they will be selected solely by their ability, and without regard to political effect. The young Cadets now at West Point also will have comrades who have been in actual battle, and have enjoyed the baptism of fire. Its effect upon the army will be excellent, and its effect upon West Point will be to elevate still higher its character and spirit. There is no scarcity of proper material in the ranks of our army; even that severe schoolman, Gen. Sherman, reports that there is a surprising number of young men qualified for the Cadetships.

Location of the Main Rebel Army.—We have not for some time had news of the precise location of the army of Gen. Lee, but our special telegram this morning enables us to fix its general outline. It is not established at any one point, but covers a great space of country—being scattered from the line of the Blue Ridge on the west to Port Royal, upon the Rappahannock, on the east, and thence south as far as the line of the Virginia Central Railroad. Ewell has the left, Longstreet the right, and A. P. Hill the centre, while a North Carolina brigade occupies Fredericksburgh, and a brigade of cavalry has moved into the Shenandoah Valley, and Lee himself is in Richmond. The object of thus scattering the rebel army is to facilitate the obtaining of subsistence. It would appear from this that Lee has no intention of undertaking any offensive operation, unless, perhaps, some raids of cavalry. His army will, doubtless, remain where it is until bad weather comes on and makes movement impracticable, after which Winter quarters will be the order of the time. Considering how his army is planted, we should think it furnished excellent opportunity for some operations on the part of *our* cavalry.

Our Army News.—The *Tribune* makes some pertinent remarks upon an impudent sentence of the Rochester *Union* of Tuesday last, which said that the "New-York Times *pretended* to have information which left no doubt that Rosecrans was moving." Before giving the *Tribune's* comments we may say that the Rochester paper was quite unhappy in its selection of an instance or an occasion upon which to throw doubt concerning the authenticity or reliability of the information for which we vouched. It was on the 22d of August that we made the exclusive and positive announcement, received by special advices from the Army of the Cumberland, that Gen. Rosecrans had left his old camping ground near Tullahoma, and was advancing with his entire army upon Chattanooga; and it was only three days afterward, or the very day that the Rochester paper made the above remark, that the announcement was made through a telegram, which was published all over the country, and we suppose in the Rochester *Union*, that Rosecrans' advance had actually arrived at Chattanooga, and was shelling it, to which was added the news two days ago, that the whole Army of the Cumberland, with Gen. Rosecrans at its head, had crossed the Tennessee River. In every detail the news, which the Rochester *Union* borrowed from us, but *pretended* to doubt, has been confirmed by subsequent facts. We advise such journals as are published outside of this City, and which find it necessary to copy the greater part of their matter from the Metropolitan Press, to avoid, at the same time, insulting their benefactors, who, at a heavy cost, furnish them the news with which they cheaply fill their columns. The following are the *Tribune's* remarks, which, we may say, are entirely voluntary on its part:

PAYING BACKWARD.

> The New-York Times *pretends* to have private information which leaves no doubt that Rosecrans is moving.—*Rochester Union, Aug. 27.*

We clip the above sentence from the leading article in a cotemporary before us, in order to call the attention of the Press and the public to the habit whereof it is an average illustration. We have chosen an instance with regard to which we can be accused of no peculiar or personal interest, and we ask the public to pass judgment on its civility and its decency.

The New-York Times does not "*pretend*" to have special advices from our various armies in the field; it *has* them, at a cost to its publishers of many thousands of dollars per annum. It is one of about a dozen journals throughout the loyal States—three or four of them issued in this city; the residue in Boston, Philadelphia, Cincinnati, Chicago and St. Louis which actually employs and pays correspondents to accompany the various Union armies and transmit by telegraph or letter such advices of their marches, battles, successes, reverses, as may from time to time be permitted or allowable. These advices, from the moment of their publication, are caught up by the telegraph and become the common property of the Press and the public. The history of the war for the Union is mainly to be sought in those dispatches and letters of paid newspaper correspondents. The amateur letters from time to time contributed by soldiers in the field, or by the friends to whom they have addressed them, are excellent in their way; but they are necessarily fitful and partial. The officer or private who does his whole duty on a battle-field usually sees but a corner of the struggle, and is too much absorbed in the strife to describe it fairly and fully.

The journals which do not systematically send regular correspondents with our various armies are always welcome to copy from those which do. Nobody thinks of blaming them for not incurring an expenditure which their circulation and their income would by no means justify. All that is required or expected of them is that they give due credit for whatever they may see fit to borrow. When they not only omit this, but replace it by *discredit*—when any of them chooses to aggravate robbery by insult—it certainly deserves exposure and rebuke.

The President and Gen. Grant.

TO WHOM BELONGS THE CREDIT OF THE VICKSBURGH CAMPAIGN.

When it was officially known that Vicksburgh had surrendered to the victorious legions of Grant, the President wrote the General the following private letter of acknowledgment and thanks for the "inestimable service" he had rendered the country.

Executive Mansion, Washington,
July 13, 1863.

Major-General Grant:

My Dear General: I do not remember that you and I ever met personally. I write this now as a grateful acknowledgment for the almost inestimable service you have done the country. I wish to say a word further. When you first reached the vicinity of Vicksburgh, I thought you should do what you finally did—march the troops across the neck, run the batteries with the transports, and thus go below, and I never had any faith except a general hope that you knew better than I, that the Yazoo Pass expedition and the like could succeed. When you got below and took Port Gibson, Grand Gulf and vicinity, I thought you should go down the river and join Gen. Banks; and when you turned northward, east of the Big Black, I feared it was a mistake. I now wish to make the personal acknowledgment that you were right and I was wrong.

Yours, very truly,

(Signed) A. LINCOLN.

NEWS FROM WASHINGTON.

Scattered Condition of the Rebel Forces Under Lee.

Their Left at the Blue Ridge and Their Right Below Fredericksburg.

AN IMPORTANT EXPEDITION.

OUR SPECIAL WASHINGTON DISPATCHES.

Washington, Tuesday, Sept. 1.

POSITION OF LEE'S FORCES.

The best attainable information locates Gen. Lee in Richmond, and his army scattered from the line of the Blue Ridge on the west to Port Royal, Rappahannock River on the east, and south as far as the line of the Virginia Central Railroad. His troops are so widely scattered, probably, to facilitate subsisting. Gen. Ewell has the left; A. P. Hill the centre, lying on the railroad from Culpepper to Orange Court-house; while Longstreet holds the extreme right, occupying the line of the Richmond and Fredericksburgh Railroad. Cook's brigade of North Carolina troops occupies Fredericksburgh. Jones' brigade of cavalry is said to have gone back to the Shenandoah Valley, and Robinson to Richmond. Stuart is still in command, but growing more and more unpopular. It is expected he will be relieved by Wade Hampton.

THE CAPTURED GUNBOATS.

The captured gunboats *Reliance* and *Satellite* are at Port Royal, where the rebels have two boats capable of transporting 250 men each per trip. Measures have been taken to recapture the gunboats and drive the rebels from Port Conway. Success is almost certain.

GUERRILLAS.

The rebel guerrillas continue in our rear. One of Kilpatrick's body guard having been killed, permission was given the guard to hunt guerrillas. They have been at it three days with great success.

PROMOTION.

Capt. Tidball, of Battery A, Second United States artillery, is promoted to the Colonelcy of the Fourth New-York heavy artillery, in this department.

REBEL DESERTERS.

Rebel deserters continue to come in squads, and are ready to take the oath of allegiance; but of those who have done so, and have been sent as substitutes to our army, nine, after stealing horses and committing other depredations, managed to rejoin their old rebel comrades the other day.

ESCAPE OF CONTRABANDS.

A large number of contrabands escaped yesterday from Charles County, Maryland. They report rebel agents picking up every negro they can find.

THE PRESIDENT'S LETTER.

It is scarcely necessary to state that the dispatch published in New-York purporting to give the sentiments of the President's letter to the Springfield meeting, is entirely devoid of foundation.

THE PUBLIC LANDS.

The Assistant Secretary of the Interior has decided adversely to the claim of Illinois for two per centum for road purposes on the entire proceeds of the sales of public lands in that State. The claims amount to about $40,000. The principle in the decision is applicable to similar claims in Indiana and Ohio.

GEN. WADSWORTH.

Gen. Wadsworth returns to New-York to-morrow. He has not yet been assigned to a command, nor has his resignation been accepted.

INTERNAL REVENUE.

The receipts of internal revenue during the month of August, were $5,604,201 35, being the largest of any month since the law went into operation.

REVENUE DECISION.

The Commissioner of Internal Revenue has decided that the seventy-fifth section of the act of July 1, 1862, provides that on railroad iron and all other iron advanced beyond slabs, blooms or loops, and not advanced beyond bars or rods, a duty of one dollar and fifty cents per ton shall be paid. Iron forgings, of whatever size or shape, in a rough and unfinished state, are held to be covered by the above provisions of the seventy-fifth section, and taxable at the rate of one dollar and fifty cents per ton.

PRESENTATION.

This evening the enrolling officers of this District presented Capt. Henry A. Scheetz, Provost-Marshal, with a massive gold watch and chain, a worthy compliment to a deserving and gallant officer.

MILITARY.

Col. Henry E. Davies, of this City, of the Harris Light Cavalry, was, on the 21st inst., appointed to the command of the First brigade of the Third division of cavalry in the Army of the Potomac.

On assuming the command, Col. Davies issued the following order:

Headquarters First Brigade, Third Division
Cavalry Corps, Near Hartwood Church,
Va., Aug. 21, 1863.

General Orders, No. 10.—Pursuant to Special Orders No. 137, Headquarters Cavalry corps, Col. Henry E. Davies, Second New-Jersey cavalry, assumes this day command of the First brigade, Third division. Though personally a stranger to the majority of his new command, they are well known to him by the reputation they have gained as brave and gallant soldiers. He feels a pride in being placed in command of men who have done so nobly in the field, and trusts that henceforward the gallant First brigade will gain laurels equal to those they have already won. Every effort will be made by him, and he hopes for the cordial support and assistance of every officer and soldier in the command in keeping up the reputation of the brigade and adding to it new honors. By command of

Col. HENRY E. DAVIES.

(Signed,) L. Siebert, A. A. G.

DISPATCHES TO THE ASSOCIATED PRESS.

Washington, Tuesday, Sept. 1.

PUBLIC LANDS IN ILLINOIS, OHIO AND INDIANA.

Illinois recently preferred a claim for about $470,000 against the Government, for 2 per centum of the proceeds of the sales of all the public lands in that State for road purposes. Acting Secretary Otto has decided against the claim, and this is also applicable to Ohio and Indiana in similar cases.

A REPORTED REBEL MOVEMENT.

A report reached Washington to-day that a large number of the rebel army yesterday crossed the Rappahannock at Port Conway, for the purpose, it is supposed, of flanking Gen. Meade. Although such a movement is not improbable, the report needs confirmation.

GOVERNMENT FLOUR.

The bids, opened yesterday, for supplying the Government with flour, ranged from $6 10 to $7 05 for No. 2, and from $6 to $6 30 for No. 3. There were only two bids for furnishing No. 1—from $6 93 to $7 25. Two hundred and twenty-nine thousand barrels were offered. It was decided to take all flour offered at $6 35 and under, amounting to about 38,000 barrels.

THE SUPPLY STEAMER BERMUDA.

The steamer *Bermuda* will leave the Philadelphia Navy-yard on the 12th, for the West Gulf Blockading Squadron, touching at Port Royal, Pensacola, and at all the stations of the Squadron. An opportunity is thus afforded for sending letters.

OPERATIONS ON THE PENINSULA.

The Expedition to Bottom's Bridge—The Rebels Defeated in a Skirmish.

Philadelphia, Tuesday, Sept. 1.

The *Bulletin* of this city has the following special dispatch:

Fortress Monroe, Saturday, Aug. 29.

Gen. Wistar's cavalry have just returned to Yorktown from an expedition to Bottom's Bridge.

The force engaged was parts of the First New-York mounted rifles, Col. Onderdonk, and the Fifth Pennsylvania cavalry, Lieut.-Col. Lewis.

The expedition left Williamsburgh on the 26th inst. and pushed through New-Kent Court-house, directly to Bottom's Bridge.

At the latter place, one rebel regiment of infantry, in rifle-pits, was found, which was supported by a squadron of cavalry.

A charge was immediately made and the rebel rifle-pits were carried and the rebels driven across the bridge, which they took up behind them.

Our troops lost one killed and one wounded.

We captured five prisoners from the enemy, who left dead on the ground, one officer, one Sergeant and two men. They also carried off a number of the dead.

The bridge being rendered impassable by the rebels, and the object of the expedition being entirely accomplished, our troops retreated with much valuable information as to the enemy's force and movements in the vicinity of Richmond.

ARMY OF THE POTOMAC.

Execution of Deserters—The Preparations—The Final Execution, &c.

From Our Own Correspondent.

Headquarters Army of the Potomac,
Saturday, Aug. 29, 1863.

The most solemn and impressive scene ever witnessed in the Army of the Potomac occurred to-day in the execution of the five deserters in the Fifth corps. Their fate had been decided several days, and though earnest efforts were made for a reprieval, or commutation of their sentence, they were unsuccessful, and the men were executed. Through the publication of the order announcing the time and place of execution the whole army was informed of it, and the attendance on the ceremonies to-day was very large—including not only the Fifth corps, who were present in line by order, but thousands of men and officers from other commands were present to be impressed by the scene, as they most assuredly were, for the impressive solemnity and its moral effect were beyond anything that has ever taken place in this army.

The prisoners, with one exception, still clung to the faint hope that they might be reprieved, and their sentences commuted to hard labor for life, almost up to the moment they were led forth to their doom. But for once the President remained immovable, and Gen. Meade declined to abate the rigor of the sentence in the least. The remaining one of the five expressed his belief several days ago that he was about to die, and since that time has been apparently resigned to his fate, exhibiting but little emotion. His demeanor to-day was marked for the absence of excitement or nervousness.

Two of the prisoners were of the Jewish faith, one of the Catholic, and two of the Protestant. Since yesterday morning they have been almost totally engaged with their spiritual advisers, every opportunity being afforded them for procuring spiritual consolation. A Priest and a Rabbi were sent for expressly to be present, and they have attended them almost constantly since their arrival.

The order for the execution required it to be done between the hours of 12 M. and 4 P. M. Every moment possible was given to the prisoners, and the execution did not take place until just before 4 o'clock. At that time, and after the troops were drawn up in line, the men were led forth and marched by the entire corps in the most deliberate and solemn manner. It was during this period that they exhibited the most emotion—two of them requiring support, so terrible was their agitation. They moved by in the following order: first, a squad of the guard; then the coffin of each one carried by four men with its doomed occupant just behind it, accompanied by the spiritual attendants; then another squad of the guard. The whole was preceded by a band, playing "Dead March:" and as the procession passed each brigade, the drum corps rolled out their solemn and mournful sounds, rendering the scene still more impressive. The prisoners were attired in blue regulation pants, white shirt and forage cap, and their arms were manacled.

After passing by the troops they were seated, each upright on his own coffin, which was set just in front of the graves, already prepared. They were then blindfolded. A platoon of fifty men was then drawn up, at a distance from the victims of not more than seven or eight yards. The men were counted off into five sections of ten men each, and each section instructed as to its victim. Each section then took from a stack ten muskets, nine of which contained bullets and one a blank cartridge, that each man might indulge the conscientious hope that it was not his bullet that did the fatal work.

The officer in command then gave, in a rapid manner and in a low but firm tone, the command, "*Ready—aim—fire!*" The fifty muskets were discharged almost as one piece, and each of the unfortunate men fell upon his coffin *dead!* They were all instantly killed, from five to eight bullets striking each one, some reaching the heart.

As soon as the troops in line were withdrawn, there was a great rush by outsiders to view the bodies, but a strong guard kept them back; and, after the last spiritual rites were performed, the bodies were buried, and the scene was over.

The arrangements for the execution were made by Gen. Griffin, to whose command the prisoners belonged, and it is proper to say that everything was conducted with a view to giving the occasion all the solemnity, impressiveness and moral effect of which it was susceptible. This is almost the first execution of the kind in this army, and its effect upon the thousands present was plainly visible, and will undoubtedly produce good results. The eyes of all the conscripts in the corps were upon these unfortunates: and a fresh arrival of 260, not yet distributed, were drawn up without arms to witness the scene.

The names of the prisoners I have not at hand just at this moment, but you have already published them. They are all foreigners—two Italians, two Jews and one German. They enlisted as substitutes in Philadelphia, and were put in the One Hundred and Eighteenth Pennsylvania regiment, known as the Corn Exchange regiment, from which they deserted, were recaptured, tried by Court-martial, sentenced and executed.

Thus tardy but simple justice has at last been achieved, and its lessons will not fail of great benefits. The scene to-day was intended as a strong example, and there are many men who will profit by it. It had long ago become necessary to take the lives of some men to save others and to save the discipline of the army. The Government has shown a forbearance and a mercy which none but a Republic would exhibit in defeating this end when heretofore sought to be reached.

Let this warning not go unheeded!

Lieut. W. C. Crafts, Company E, Eighth New-York Cavalry, committed suicide last night in camp, by stabbing himself. He was a young officer, highly esteemed, and no satisfactory cause is yet assigned for the act. His body will be embalmed, and sent home.

It may not be generally known that the rebels have destroyed the beautiful bridge over Potomac Creek, erected by the Government last Spring, and in use only a short time before the army left that point. They did it only a short time ago, not long after this army arrived in its present position. They have also taken up a large portion of the iron of the road, and shipped it South—probably to repair the balance of that railroad with it. That section of country is now frequently visited by our cavalry, and further depredations are at an end. The old camping grounds of last Winter and Spring are still a barren waste, though in some portions a considerable spontaneous crop of oats and corn is growing—the seeds having been sown in the stables and corrals.

We have various rumors of movements by the enemy, but nothing that seems to be certain. In fact, everybody seems to be considerably in the dark in regard to their intentions. L. L. CROUNSE.

Municipal Election in Wilmington.

THE UNION STATE CONVENTION.

Great Gathering of Delegates at Syracuse.

The Probable Composition of the State Ticket.

Special Dispatch to the New-York Times.

SYRACUSE, Tuesday, Sept. 2—12:10 P. M.

The Delegates to the Union Convention are gathering in large numbers. It promises to be harmonious so far as principles are concerned. The only divisions will relate to the contest for minor offices. Senator MORGAN will be permanent Chairman, probably.

For Comptroller, the leading name is THOMAS W. OLCOTT.

For Attorney-General—JAMES T. BRADY.

For Secretary of State—DEPEW, of Westchester, or PORTER, of Niagara.

For Treasurer—Senator BELL, of Jefferson, and HUNTINGTON, of Oneida, are most prominent.

For State Engineer—C. W. WENTZ.

For Canal Commissioner—Gen. HILLHOUSE, of Ontario; and for State Prison Inspector, Mr. BATES, the present incumbent, are the most talked about.

Nothing is yet settled; but I think the ticket will be made up from these names. There is a general disposition to make strong nominations, regardless of political differences. The platform will be judicious and patriotic.

Mayor OPDYKE will be pressed for permanent President, and also for member of the State Central Committee. Mr. GREELEY is active for him. Mr. WEED is not here.

There is a general disposition to reconstruct the State Central Committee.

President LINCOLN'S letter will be read to the mass-meeting on Thursday. It is said to be exceedingly judicious and patriotic.

DISPATCHES TO THE ASSOCIATED PRESS.

SYRACUSE, Tuesday, Sept. 1.

The Union State Convention, which meets at Wieting Hall to-morrow morning, promises to be an immensely large gathering of the members of the party. The trains which arrived to-day were crowded with delegates, and it is evident that there will be a full attendance from all sections of the State, while the outsiders representing one or the other of the opposing forces muster very strongly.

Among the prominent men present and apparently taking an active part in the preparations for organization, are Senator Morgan, H. J. Raymond, Horace Greeley, Mayor Opdyke, Horatio Ballard, H. H. Van Dyck, William B. Taylor, V. M. Rice, Henry A. Foster, Gen. Bruce, Holles White, Senators Bell, Tobey, Abbott, Angell, Charles Cook, Robinson, Sanford, Hutchinson, Ferrar and Truman, Judge Robertson, Harry Wilber, J. C. Callicott, S. H. Hammond, and others.

An active canvass is going on this evening for the organization, as well as in regard to candidates. With reference to the temporary organization, it is claimed by the radicals that it was provided for by the last State Convention, which adopted the following resolution, on motion of Mr. MADDEN, of Orange County:

Resolved, That hereafter the Chairman of the State Committee, if present—if not, then any member thereof—shall call the Convention to order, and himself act as Chairman thereof, for the mere purpose of organizing said Convention.

Judge Low, Chairman of the Committee, being present, the radicals insist that he alone under this resolution, is entitled to preside over the temporary organization; while the other side contend that the resolution is of no binding force, the last Convention having no power to lay down rules for the guidance of its successor. Each side claims a majority of the Delegates; and as this question involves the character of the permanent organization, its decision is regarded as of much importance. Among those named for President, are Senator MORGAN, Mayor OPDYKE, and Judge FOLGER; the latter being mentioned as a compromise man.

The advocates for an entire new ticket seem the strongest, although there are many pressing for the renominations of Comptroller ROBINSON, State Engineer TAYLOR, and Secretary BALLARD. The new candidates for Secretary of State most frequently mentioned, are C. M. DEPEW, of Westchester; Judge FOLGER and Gen. COCHRANE. T. C. CALLICOTT is also named. For Comptroller, T. W. OLCOTT, JAMES A. BELL, and E. S. SPAULDING, of Erie, are named: for Attorney-General, JAMES T. BRADY and JOHN K. PORTER; for State Treasurer, GEORGE E. SCHUYLER and —— WILMAN, of New-York; for Canal Commissioner, Gen. BRUCE, A. C. POWELL, of Syracuse, and S. T. HAIGHT, of Steuben; for Inspector of State Prisons Dr. BATES, (the present incumbent,) DE FORREST, of Schenectady, and Mr. WILMAN, of New-York.

SYRACUSE—Midnight.

The late trains have added largely to the crowds at the hotels, and much to the afternoon rumors and speculations. At the Globe Hotel this evening a caucus was held, over which Senator TRUMAN presided. It is reported that at this caucus the mode of organizing the Convention was the chief topic discussed, whether Judge LOWE should act under the resolution of the last Convention and preside as temporary Chairman. The question, it is said, was discussed at some length, and finally dropped without a result.

At the Syracuse House a consultation was held by some of the leaders of the Anti-Radicals, and they are reported to have determined to oppose the organization of the Convention under the resolution of last year.

But little has yet transpired with regard to the platform, and few seem to anticipate any serious difference of opinion in regard to it.

The programme of candidates varies by new arrivals. The following are named by prominent delegates at the Syracuse House: Comptroller, Thomas W. Olcott or James A. Bell; Secretary of State, Col. Porter, of Niagara; Attorney-General, James T. Brady; Treasurer, Mr. Huntington, of Oneida; Canal Commissioner, Thomas H. Hillhouse; Inspector of State Hrisons, Dr. Bates or D. K. Forrest; Judge Selden is the only one named for Judge of the Court of Appeals.

State Convention in Missouri.

JEFFERSON CITY, Tuesday, Sept. 1.

The Radical Emancipationists met here in State Convention to-day, and effected a permanent organization, with Judge Wells, of Cole County, in the Chair, and two Vice-Presidents from each Congressional District.

Four-fifths of the counties of the State are represented, and other delegates are yet to arrive. Candidates for Supreme Judges of the State are to be nominated.

The following resolution created the wildest enthusiasm, and was referred to the Committee on Resolutions:

Resolved, That, relying upon the unanimity of feeling existing between the Union men of Missouri and Illinois, we respectfully request the latter, while assembled in mass meeting at Springfield, to join us in appealing to the President for such a change of administration in the Department of Missouri as will correct the evils of the policy of Pro-Slavery conservatism and concession to rebels, which has permitted the massacre at Lawrence, and under which the true loyal men of Missouri are to-day suffering the infliction of a murderous civil strife from the presence of large numbers of enemies to the Government, while every foot of her soil is under Federal rule.

A resolution was adopted, declaring it expedient that the Convention make necessary arrangements for calling a Constitutional Convention to adopt and submit to the people an ordinance for immediate emancipation, and take such other measures as will tend to pacify the State.

Resolutions were also adopted recommending the people to instruct in writing, by a majority of votes, each member of the present Legislature who will not pledge himself in writing to vote to call a new Convention; the name of each member betraying his constituents to be published in every newspaper in the State.

The following resolution was also adopted:

Resolved, That we respectfully demand of Gen. SCHOFIELD permission to recruit volunteers belonging to disloyalists in this State; that as the exigencies of the times indicate a change of Department Commanders, we appoint a Committee to draft a memorial, which shall be signed by the members of this Convention requesting the President to assign Gen. BUTLER or some other suitable man, to command this Department; that we regard the President's January Proclamation of 1863 as irrevocable, and we request our Legislature, and Senators and Representatives in Congress to use their utmost endeavors to have our National Constitution amended so as to prohibit Slavery forever in States now free or hereafter applying for admission into the Union.

THE REBELS IN ARKANSAS.

Kirby Smith and Price Reported at Little Rock, with 40,000 Men.

MEMPHIS, Monday, Aug. 31.

The *Bulletin* of the 30th inst. learns from Mr. RAY, recently a prisoner at Little Rock, that the rebel force at that place was 40,000 strong, many of whom were conscripts from 16 to 60 years, only half-armed, and commanded by Gens. KIRBY SMITH and PRICE.

The rebels are erecting fortifications on the opposite side of the river, thirteen miles from Little Rock.

It is reported that Gen. BLUNT is marching on Arkadelphia.

Mr. RAY says that the people of Arkansas are tired of the war, and would gladly come under the protection of the Federal Government.

Contradictory Reports from Gen. Blunt.

LEAVENWORTH, Tuesday, Sept. 1.

Advices from Fort Gibson to the 24th ult. state that Gen. BLUNT with 6,000 men and twelve pieces of artillery, crossed the Arkansas River on the 23d, but the enemy declined a battle and fell back. The rebel force is estimated at 25,000.

There was considerable sickness at Fort Gibson, but few deaths, however, had taken place. The small pox prevailed to some extent among the Indians in that neighborhood, and many had died.

There were reports at Fort Scott, on the 28th, that BLUNT had fought a battle and been whipped, with the loss of three thousand men.

THE VERMONT ELECTION.

An Overwhelming Union Success.

MONTPELIER, Vt., Tuesday, Sept. 1.

The election for the choice of Governor, Lieutenant-Governor and Treasurer, three members of Congress, also members of the Legislature, took place in this State to-day. Hon. JOHN GREGORY SMITH, of St. Albans, was the candidate of the Republican Union Party, and Hon. T. P. READFIELD, of Montpelier, the nominee of the Peace, or Seymour Democrats. Not much interest has been taken in the campaign by the friends of Mr. SMITH. The Democrats have acted differently, and have labored energetically, under the hope of realizing large gains. In 1861 and 1862 the Democracy had little or no organization in the State, and generally were absent from the polls. We, therefore, so far as the returns have been received, give the vote as compared with that of 1860, when the two wings of the Democracy were strongly united. The vote of the State will be about 8,000 less than in 1860, when it amounted to 48,500.

We have returns from 34 towns, embracing about one-fourth of the State. They give SMITH 7,525, and READFIELD 3,017. The same towns in 1860 gave FAIRBANKS (Rep.) 8,373, and SAXE and HARLEY (Dems.) 3,663. SMITH'S majority so far is 202 less than that of FAIRBANKS.

The following is the vote for Governor in a few of the prominent towns:

	Smith.	Readfield.
Montpelier	318	67
Burlington	481	198
St. Albans	367	81
St. Johnsbury	403	122
Woodstock	337	44
Springfield	356	45
Brattleboro'	372	108
Rutland	527	238
Middleburgh	213	67
Brandon	212	82

Only two towns as far as heard from give Democratic majorities.

We have the Legislative vote of 50 towns. All send Union Representatives but two. Among the members elected are W. C. Smith, of St. Albans; W. G. Shaw, of Burlington; Charles Read, of Montpelier; J. S. Marcey, of Royalton; O. P. Chandler, of Woodstock; and S. M. Dow, of Rutland.

The Senate will be unanimously Union, and the three Congressmen also Union by from 6,000 to 8,000 each.

Mercantile Library—Annual Reopening.

The annual reopening of the Mercantile Library, which took place at Clinton Hall, last evening, furnished the occasion for another of those pleasant reunions that have so often lent a charm to the progress of that popular and useful Institution. The Mercantile Library Association has now been in existence forty-two years, and however sanguine may have been the hopes of its liberal and enlightened founders, they have been more than realized by the success that has attended its career. The library numbers at present nearly 70,000 volumes, comprising the best miscellaneous collection of books for general reading to be found in this country. Its reading-room is unsurpassed by any in the world, containing a larger number of newspapers, magazines, reviews, &c., both of this country and Europe, than can be found in any reading-room extant. During the last two weeks in which the library has been closed, the rooms have been thoroughly cleaned and painted, a large number of new books have been added, and the entire establishment presents an air of neatness, elegance, and classic repose that cannot fail to charm the student and the man of leisure. The attendance at the reopening last evening was very large, as usual, and comprised a goodly representation of the fair sex, who, we are glad to learn, are fast availing themselves of the privileges of membership, which the recent regulations of the Association permit. GRAFULLA'S band discoursed choice selections of music to the promenaders in their rambles through the building; and during the evening Gen. JOHN COCHRANE favored the audience with a beautiful and flowery speech, in which he spoke of the rise and progress of the institution, and the incalculable benefits which it has conferred upon the youth of the Metropolis; and did not fail to remind his hearers of the debt of gratitude they owed to the brave soldiers of the Republic, who had taken their lives in their hands to go forth in defence of that flag and those free institutions under which they were then enjoying themselves in quiet and safety. Gen. COCHRANE'S remarks elicited great applause. Much credit is due to the President of the Association, Mr. CHARLES W. SWORDS, to the Recording Secretary, Mr. SAMUEL W. HARNED, and to the other officers of the institution, for the excellent arrangements of the evening.

PERSONAL.—Col. ESTVAN, author of *War Pictures from the South*, and until lately a Confederate officer, has arrived in this city from Europe, and is now preparing a series of literal pictures and photographic views of the great battle-fields of Virgina, as seen from the Southern stand-point.

DR. LIGHTHILL ON CATARRH.

Its Causes, Symptoms and Effects.

LETTER No. III.

[Entered according to act of Congress, in the year 1863, by E. BUNFORD LIGHTHILL, M. D., in the Clerk's office of the District Court of the United States, for the Southern District of New-York.]

In the preceding letter were described the anatomy of the parts affected or liable to become affected in Catarrh, and its effects upon the general health. The present letter contains a description of its effects on the throat, and the senses of smell and taste. This arrangement, though differing somewhat from the previous announcement, will be found more advantageous, as by understanding the condition of the throat produced by Catarrh, subsequent explanations will be more readily comprehended. Any cause liable to impair hearing is of so great and general an importance, that the next letter will be devoted exclusively to the explanation of the manner in which Catarrh is so frequently productive of deafness.

EFFECTS OF CATARRH ON THE THROAT.

Owing to its close proximity to the nasal cavities, and the irritating properties of the discharge which so frequently passes into it, the throat is almost invariably affected in catarrh. The sensation usually experienced is a feeling of heat, tickling or dryness in the fauces, a soreness in swallowing or upon pressure, a constant disposition to swallow, and a short, hacking cough. A tendency is complained of to take cold from the most trivial causes, such as slight changes in the weather or the least exposure, and that the best of care cannot prevent the symptoms from becoming aggravated at times. When this takes place a sensation of constriction or tightness in the throat and a feeling of pain and soreness is added to the previous sensations. Upon examination the mucous membrane will be found of a dark red color, somewhat swollen, and covered with little excrescenses called granulations, produced by the enlargement of its follicles. Ulceration in small spots or patches will not unfrequently exhibit itself. The granulations are sometimes equally distributed over the soft palate and pharynx, or they may be seen associated in clusters or ridges, giving the membrane a streaked appearance. They are usually covered with matter resembling the white of an egg, or a muco-purulent secretion, the removal of which considerably increases the expectoration and hawking incident to Catarrh. The uvula will frequently enlarge and becomes a source of irritation about the root of the tongue and glottis, producing a delusive sensation as of something in the throat and inducing constant efforts for its removal. Long-continued and serious coughs have also arisen from this cause and been kept up by it. The tonsils sometimes become enlarged on one side or the other, and sometimes on both, and increase the general irritation. The pain in throat-affections scarcely ever amounts to more than a feeling of uneasiness and discomfort, and is generally so slight as not to attract attention. Many of those who are affected are unaware of it, until their attention is called to some of the symptoms above enumerated, or a personal inspection reveals to them the morbid condition existing.

EFFECTS ON SMELL.

Upon the pituitary membrane lining the upper portion of the nose, are spread the filaments of the olfactory nerve, which escape from the brain through a small fissure at the base of the cranium. Through the agency of this nerve we become conscious of odorous emanations with which the air is impregnated, and which are conveyed to the nasal cavity during ordinary breathing. The sense of smell appears to be limited to the upper portion of the nose, for in order to detect very faint odors, we have to draw the air charged with them upward, by the peculiar inspiratory effort known as sniffing.

A healthy condition of the mucous membrane and its secretion is essential to enable the olfactory nerve to exercise its functions properly. Inflammation or irritation of that membrane, and a consequent change of its secretion, is invariably followed by an impairment of smell, as is exhibited by an ordinary cold, where smell is blunted in its commencement, when the pituitary membrane is dry, and its secretion diminished and watery, as well as in its progress, when the discharge is thick, viscid and abundant. In Catarrh the part most particularly affected is the lining membrane of the nasal fossae, involving the filaments of the olfactory nerve, which are spread upon it. Smell is therefore in all cases more or less blunted, and in those where the inflammation attacks the upper portion of the nose more particularly, entirely lost. Even should the integrity of the nerve remain undisturbed, smell suffers on account of the abnormal condition of the nasal secretion. This, together with the incrustations which coat the pituitary membrane, prevents odorous emanations from penetrating to the nerve-fibres, or from acting upon them in the manner necessary to produce perfect impressions.

Smell not only adds to our enjoyments by enabling us to appreciate the fragrant exhalations of buds, flowers, plants and odorous substances; it is also a guard to the air-passages by taking cognizance of the air which passes through the nose, and giving warning of that which would be injurious, and is essential to the development of perfect taste. Correct impressions of the sapid properties of food can only be received through the combined agencies of smell and taste; those substances which are possessed of a decided flavor, generally having a no less decided smell. To demonstrate the great influence exercised by the sense of smell on that of taste, let any one close the nostrils while holding in the mouth some aromatic substance; its taste will then be scarcely perceived, although immediately recognized when the effluvia is drawn into the nose.

Impairment or loss of smell produces, therefore, a a corresponding effect on taste, and furthermore deprives the air-passages of its protective influence, so that deleterious gasses may enter the lungs.

EFFECT ON TASTE.

If a substance is brought in contact with the tongue, we are enabled to perceive its sapid properties, and can thus distinguish between the different flavors of food, and select that which is useful; for, generally, those substances, the taste of which is agreeable, are useful in our nutrition, and *vice versa*. Taste, however, becomes very much modified by education—some individuals or natives considering certain articles of food as delightful, which to others are absolutely nauseous. Although the tongue is the principal seat of taste, yet that sense is diffused to some extent over the soft palate, its arches and the pharynx. Our conceptions of taste are received through the agency of nerve-fibres which are imbedded in the mucous membrane of the tongue, and, to a certain extent, that of the fauces. It is necessary, therefore, that food should be swallowed for the perfect appreciation of its sapid qualities, as during that process it is brought in contact with the fauces, and its effluvia is allowed to enter the nose through the pharynx, exalting taste, and exhibiting again the intimate relation between smell and taste.

As in smell, therefore, so in taste the mucous membrane is the medium through which the nervous apparatus receives its impressions, and its condition exercises a decided influence on the degree of acuteness of that sense. Aside, therefore, from the injurious effect produced on taste by the impairment of smell, it suffers directly in Catarrh, from the morbid condition of the mucous membrane, of the fauces and tongue, which impairs the sensibility of the nervous structure. In some cases this is carried to such an extent that taste is entirely destroyed, so that sugar cannot be distinguished from salt.

Taste guides us in the proper selection of our food, and aids digestion by exciting a flow of the salivary secretions during mastication, thus preparing the food for the stomach and the action of the gastric juice. How much the salivary glands are under the control of taste is exhibited by the abundant flow of saliva when imagination depicts to us some article of food, the taste of which is agreeable, and which causes, to use a common expression, "the mouth to water." It will be seen, therefore, that taste was not created for the purpose of increasing our animal en[illegible] Its loss or impairment is followed by very unpleasant consequences, and should be, if possible, prevented.

The next letter, which will appear on Wednesday next, will treat on the Deafness, Noises in the Head, and diseases of the Ear, arising from Catarrh.

☞ The author can be consulted on Catarrh, deafness and diseases of the eye, ear and throat, at No. 34 St. Mark's-place, (Eighth-street, between Second and Third avenues,) from 9 A. M. until 3 P. M.

MARTIN'S LIFE CORDIAL.
THE GREAT AMERICAN REMEDY FOR CHOLERA, CHOLERA MORBUS, CHOLERA INFANTUM, DYSENTERY, DIARRHŒA, SUMMER COMPLAINT, PAIN AND CRAMP IN THE STOMACH, SOUR STOMACH AND HEARTBURN.
It relieves those disagreeable symptoms of DYSPEPSIA, NAUSEA, and RISING OF FOOD after eating, and as a SOOTHING SYRUP FOR CHILDREN, it has no equal. It regulates the bowels, allays pain, and under its very SOOTHING effects the child gently drops into a quiet slumber, and awakes refreshed and invigorated. It is very pleasant to the taste, and children, instead of refusing to take it, cry for the medicine after once tasting it. Call for circular and read certificates from such men as Prof. N. P. Hill, of Brown University; Rev. Horace James, of Worcester, Mass., now Chaplain of the Twenty-fifth Massachusetts, and Superintendent of Blacks, Newbern, N. C., officers in the army, and others.
N. B.—This article is warranted, even in the most obstinate cases, and Agents are particularly requested to pay back the money, where satisfactory evidence is given that the medicine has proved ineffectual.

BALM OF THOUSAND FLOWERS,
Is a delightful compound, highly and delicately scented by its own ingredients, for use in the toilet.
FOR THE TEETH, it is far superior, and more medicinal, than any preparation yet known. It quickly renders them white as alabaster, removing tartar, preventing ulceration and decay of the teeth, and perfuming the breath.
FOR SHAVING, the Balm gives a rich, penetrating lather, and has no equal in rendering the beard soft and tender.
FOR THE COMPLEXION. It will effectually remove pimples, tan and freckles, imparting beauty and health to the skin.
FOR THE NURSERY. No article is more suitable for suffering infants, to promote cleanliness and health, than the PALM OF THOUSAND FLOWERS. It is far preferable to spirits, lotions, Castile soap, and similar cosmetics.

AGAIN NEW TESTIMONY.

READ.

HARLEM, July 30, 1863.

I have been deaf for over TWENTY-FIVE YEARS, and Dr. VON EISENBERG operated on both of my ears without the slightest pain—a thing that I could not believe could be done. I now *hear* well, and feel as I never felt for the last twenty years. The dexterity and skill with which the operation was performed evince the highest-practical ability. I *hear perfectly*. It is now over a month since the operation, and I continue to feel as well as ever.
WILLIAM LIDDLE,

CATARRH CURED.

NEW-YORK, Aug. 28, 1863.

I have been suffering for the last three years from a severe Catarrh, with a continual dullness in my head, a tightness across my chest, a weight over my eyes, which were weak, watery and very painful. My nostrils were continually obstructed with a pouring of fluid. I have had frequent sneezing, hoarseness of my voice, generally attended with spitting, often with a fullness of my throat together with a soreness and a dropping. Dr. VON EISENBERG has cured me of all these disagreeable sufferings. I now feel a new life. The treatment of Dr. VON EISENBERG is as skillful as it is successful; it is impossible to overrate the benefit I have received at his hands. I heartily recommend any one suffering like myself to place themselves under Dr. VON EISENBERG'S care, with a certainty of being *speedily* cured. I give this with gratitude and pleasure. I cannot forbear again saying that my voice, which was hoarse and thick when I applied to Dr. VON EISENBERG, is now clear and good; indeed, I feel abundantly satisfied.
JAMES LITTLE,
No. 245 7th-st., New-York.

"NEW-YORK, May 7, 1863.

I have great pleasure to testify to the skill of Dr. VON EISENBERG. I went into his office almost completely deaf, and came out with my perfect hearing. It is nearly twelve months since, and the hearing is perfect. The operation, which lasted two or three minutes in each of my ears, gave me no pain whatsoever. I, with confidence, recommend all sufferers to place themselves under Dr. VON EISENBERG'S unsurpassing skill.
SAMUEL C. HUNT,
No. 6 Meserole-av., Greenpoint, L. I."

NO. 134 ALLEN-ST., NEW-YORK, Feb. 9, 1863.

I have been completely deaf in one ear, and partially so in the other, for above seventeen years, with a disagreeable discharge from both ears, combined with continual rumbling noise in the head, for which I have been treated by a most eminent practitioner in the City without the slightest relief.
I consulted Dr. Von Eisenberg, but I must candidly say that I had no faith in his success when I did so. It is, therefore, due to Dr. Von Eisenberg to acknowledge that I am entirely cured; also, that he displayed that skill and knowledge which have procured for him such an unrivaled reputation. As I have had an opportunity of comparing his mode of treatment with that of others, I can truly state that it is not only superior, but the principles which direct his mode of restoring the hearing are, in my opinion, certain.
JOHN TAYLOR,

NEW-YORK, July 19, 1863.

This certifies that my mother has been for some time afflicted with partial deafness, suffering from pain, and rumbling noises in the head, together with other indications of a *total loss of hearing*. Dr. Von Eisenberg removed from her ears a great quantity of matter, together with coagulated blood, relieving her instantaneously, and all without pain. It is with grateful thanks that I give this testimony to his skill.
CARROLL J. POST, No. 28 South-st.

SIGHT RESTORED.

JUNE 25, 1863.

My daughter brought me to Dr. VON EISENBERG almost completely blind in both eyes. I could not bear the pain nor the light. I am completely cured by Dr. VON EISENBERG, and called now to express my gratitude to the Doctor for his skill and unremitting attention, by which I recovered one of the most precious senses to me after being deprived of it for four years. It is only due to Dr. VON EISENBERG to state that I have tried several physicians in vain. I shall be happy to bear personal testimony to Dr. VON EISENBERG'S unrivaled success to any lady or gentleman who will call on me.
HUGH GILLON,

CHRONIC CATARRH CURED.
READ!
NEW-YORK, March 20, 1863.
"This is to certify, that I have suffered from very severe CHRONIC CATARRH, with a dull heaviness in the head. I felt my nose completely stopped up accompanied by continual soreness of the throat, the chills stealing over me with occasional hot flushes, a great tightness of the chest and pain, so much so, that every one thought it was consumption. Having heard of the great cures performed by Dr. Von Eisenberg, I consulted him with but little hope of a cure. I am now happy to be enabled to add my testimonial to the great number already in the Doctor's possession as to his scientific and successful mode of treatment, as he has shown in my case that skill and knowledge which have procured for him so great a reputation. I am so entirely restored to perfect health that I do most sincerely recommend all sufferers from CHRONIC CATARRH and SORE THROAT to apply at once to Dr. Von Eisenberg with a certainty of being cured."

PUBLIC NOTICES.

THE COUNTY OF NEW-YORK.

NOTICE TO APPLICANTS FOR SUBSTITUTE AND EXEMPTION MONEY.

I. The National Government requires more men to complete the work of suppressing the Southern rebellion, and to obtain them it resorts to a *Draft*, as authorized by an act of Congress, which is the law of the land, and, as such, is entitled to all respect.

II. The authorities of this county are desirous to aid the Government, as in duty bound, in accomplishing its just purposes; but inasmuch as the presence and services of certain of our citizens—the active firemen, the policemen and the uniformed militiamen—are deemed essential to the maintenance of public order in this metropolis, and the protection of the lives and property of our own people, they desire to make such arrangements as will effectually secure these ends, and at the same time furnish the number of men needed by the Government.

III. With these views it has been determined to pay "such sum and sums of money as may be necessary to procure acceptable substitutes, not exceeding $300 for any one substitute," for the citizens above mentioned, who are liable, under the provisions of the Act of Congress referred to, to be drafted, and who have been or may hereafter be actually so drafted to serve in the armies of the Union.

IV. It is, nevertheless, hoped and expected that all such drafted firemen, policemen and militiamen will feel it incumbent upon them to use their best exertions to procure acceptable substitutes to serve in their respective places, and thus comply with the reasonable and just requirement of the Government.

V. The Ordinance provides that, "In case such substitutes, or any of them, cannot be procured, within the time they may be required, it shall be the duty of the Comptroller to pay to the proper officer of the United States the sum necessary to procure the exemption of the persons above mentioned for whom substitutes are not furnished."

VI. In all cases of application for the payment of money to substitutes for the drafted persons before specified, the Comptroller will require the following particulars, that is to say:

FIREMEN and Exempt Firemen performing active duty will furnish written or printed statements, to be subscribed and sworn to by them, setting forth—

1. Their residences, giving the ward and the number and name of the street or avenue.
2. Their age, and whether married or single.
3. Their occupation.
4. The fact of their having been drafted, and in what Congressional District, and whether they have been duly inspected by or under the direction of the Board of Enrollment and found to be liable to perform military duty under the Act of Congress entitled "An act for enrolling and calling out the national forces and for other purposes," passed March 3, 1863.
5. The name of the engine, hook and ladder, or hose company of which they are members, or in which they perform duty, and the date when they were elected as such members, or became attached to such company, and whether or not they perform active duty in the Fire Department.

Each of said statements must have affixed to it a certificate signed by the Foreman and Secretary of the Company to which the applicant belongs, to the effect that the facts therein set forth are true, and this certificate must be countersigned by the Chairman of the Committee appointed by the Board of Representatives of the Fire Department.

POLICEMEN will furnish written or printed statements, to be subscribed and sworn to by them setting forth:

1. Their residence, giving the Ward, and the name and number of the street or avenue.
2. Their age and whether married or single.
3. The fact of their having been drafted, and in what Congressional District, and whether they have been duly inspected by or under the direction of the Board of Enrollment, and found to be liable to perform military duty under the Act of Congress entitled "An act for enrolling and calling out the National forces," &c., passed March 3, 1863.
4. The date of his appointment as a member of the Metropolitan Police, and the place and Precinct within the City and County of New-York where the applicant is stationed and performs police duty, and the date when he was so stationed or detailed.

Each of said statements must have affixed to it a certificate signed by the captain or other commanding officer of the Precinct to which the applicant belongs, to the effect that the facts therein set forth are true, and this certificate must be countersigned by the President of the Board of Police.

MILITIAMEN will furnish written or printed statements, to be subscribed and sworn to by them, setting forth—

1. Their residence, giving the ward, and the name and number of the street or avenue.
2. Their age, and whether married or single.
3. The fact of their having been drafted, and in what Congressional District, and whether they have been duly inspected by or under the direction of the Board of Enrollment, and found to be liable to perform military duty under the act of Congress entitled "An act for enrolling and calling out the national forces," etc., passed March 3, 1863.
4. The name of the company and regiment, or other military organization within the City and County of New-York to which the applicant belongs, and the date when he became a member of such company and organization, and also his present rank.

Each of said statements must have affixed to it a certificate, signed by the commandant of the company to which the applicant belongs, to the effect that the facts therein set forth are true, and this certificate must be countersigned by the Colonel or other commanding officer of the regiment or other organization.

VII. The moneys authorized by the ordinance to be paid for substitutes, as above, will be paid to such substitutes respectively, or their duly authorized agents, at the office of the Comptroller, or such other place or places as he may designate, immediately upon their furnishing him with satisfactory evidence of their acceptance and actual muster into the service.

☞ The rules prescribed in relation to persons in indigent circumstances, having families depending upon them for support, will be published to-morrow.

MATTHEW T. BRENNAN,
Comptroller.
CITY OF NEW-YORK, DEPARTMENT OF FINANCE, COMPTROLLER'S OFFICE. Sept. 1, 1863.

NEW-YORK COUNTY SUBSTITUTE AND RELIEF COMMITTEE.

The Committee hereby give notice that they have fixed their office at the Supreme Court Rooms, Nos. 71 and 73 Duane-street, up stairs, and that said office will be open daily at 9 o'clock, A. M., until the business for which the Committee was organized is disposed of.

The Committee also give notice that no application for the payment of Substitute or Relief money will be entertained until the District Board of Enrollment have examined and accepted the person drafted into the United States' service, under the Act of Congress approved March 3, 1863.

The certificate of acceptance by the District Board of Enrollment must be presented to this Committee.

The following Rules and Regulations have been adopted in relation to drafted persons in indigent circumstances who have families depending upon them for support:

I. The term "citizen," employed in the fourth and seventh sections of the Ordinance of the board of Supervisors, embraces all residents of this City and County liable to draft and service under the Act of Congress.

II. The words, "having a family depending on him for support," which occur in the fourth section of the Ordinance aforesaid, and their equivalent as used in the seventh section of said Ordinance, are construed to mean and include the following cases, that is to say:

1. A man having a wife and child or children,
2. A man having a wife only.
3. A man having children, whose wife is dead,
4. A man having a parent or parents, or other near relatives, for whom he habitually provides,

} Who are wholly dependent upon him for support.

III. Drafted persons in indigent circumstances, situated as above, who upon inspection by the Board of Enrollment are found liable to serve, and who shall elect to serve, and actually be mustered into the service of the United States, on applying to this Committee, and satisfying them in regard to the above points, will be furnished with a certificate as provided in the fourth section of the ordinance, which will entitle their families to the amount of relief therein expressed, not exceeding the sum of three hundred dollars, which will be paid by the Comptroller in such installments, and at such times, as will, in his judgment, best afford the assistance needed by such families.

IV. In case any such indigent drafted person, whose liability to serve has been determined by the action of the Board of Enrollment, has a family depending upon him for support, who are in such condition as to render it, in the opinion of the Substitute and Relief Committee, a case of peculiar hardship for him to leave them, and he shall be unable to procure a substitute within the time required, he may report the fact to said Committee, and on their being satisfied in regard to it, and particularly, that he has used his best endeavors to obtain a substitute, they will furnish him a certificate to be presented to the Comptroller, who will thereupon pay to the proper officer of the Government the sum necessary to obtain his exemption from the draft.

☞ Blank forms of application for relief under the ordinance may be obtained either at the office of the Clerk of the Board of Supervisors, City Hall, or at the Committee Rooms, numbers seventy-one and seventy-three Duane-street.

IMPORTANT TO FEMALES.—DISEASES OF females scientifically treated by Dr. THIERS, No. 1,217 Broadway, (near 29th-st.,) New-York. Send a red stamp for ladies' circular and escape quackery. Board provided.

PRIVATE CONSULTATION.—DR. HUNTER has for thirty years confined his attention to diseases of a certain class, in which he has treated no less than fifty thousand cases without an instance of failure. His great remedy, HUNTER'S RED DROP, cures certain diseases when regular treatment and all other remedies fail; cures without dieting or restriction in the habits of the patient; cures without the disgusting and sickening effects of all other remedies; cures in new cases in less than six hours; cures without the dreadful consequent effects of mercury, but possesses the peculiarly valuable property of annihilating the rank and poisonous taint that the blood is sure to absorb unless his remedy is used. That is what he claims for it, and what no other will accomplish. Its value in this respect has become so well known, that scientific men in every department of medical knowledge begin to appreciate it, for hardly a week passes that he is not consulted by druggists, chemists and physicians in regard to some pitiful patient who has exhausted the whole field of the faculty, and still the disease will appear. Its popularity is so great that there is not a quack doctor in the City that has not attacked it, and when they find their lies are not so easily swallowed, they then pretend that they can make it. It is $1 a vial, and cannot be obtained genuine anywhere but at the old office, No. 3 Division-st. Book for 15 three-cent stamps, 300 pages, 100 colored illustrations. The best work out.

THE DRAFT YESTERDAY.

Continued from First Page.

At the conclusion of the drawings a brief recess was taken, during which the ballots remaining in the wheel were counted by the Committee, and found to correspond with the desired tally.

Sergeant Thomas J. Cornell, several Police officers, a brother of Hon. Moses F. Odell, and the Secretary of the Montauk Insurance Company were among the favored ones.

After the Fourth Warders had retired from the room, the Fifth Warders in full force assembled, and the atmospheric status of the room became if possible more fearfully unhealthy and disagreeable.

Capt. Gregory having called the audience to order, appointed a Committee of citizens to count the ballots, who announced the total number deposited in the wheel to be 2,446, of which 551 were to be drawn as the quota of

THE FIFTH SUB-DISTRICT,

or Fifth Ward, including the 50 per cent. additional. The Hon. Moses F. Odell, Inspector Folk, Lieut. Barbor, Commissioner of Police Bergen, Postmaster Lincoln and other prominent gentlemen, occupied the platform at the side of Capt. Gregory.

All being ready, the Commissioner announced the name of Michael Maguire, No. 69 Hudson-avenue, as the first on the roll of conscripts from the Fifth Ward. The other names were then drawn, and will be found herewith alphabetically arranged.

At the conclusion of the revolutions, Capt. Gregory ordered the counting of the ballots remaining, which resulted in a proof, and then a recess was taken for an hour.

The Sub-Districts heretofore have corresponded numerically with the Wards; hereafter they do not.

At 2 o'clock the afternoon session was opened, and Capt. Gregory delegated Messrs. Deane, Taylor and Van Brunt to count the ballots for

THE SIXTH SUB-DISTRICT,

or the Seventh Ward. They announced the number to be 1,500, of which 373 are to be drawn as the quota for the District, with the 50 per cent. additional.

Incidents of the Draft in Brooklyn.

The draft was continued yesterday in the Third District. The Provost-Marshal's office in Washington-street was thronged with spectators from an early hour, and the sidewalk opposite was crowded during most of the day. The Fourth, Fifth and Seventh Wards were drawn. The Eleventh and Thirteenth will be drawn to-day, and the Fifteenth and Nineteenth on Thursday. The best of order prevailed.

Among the Police drawn were Capt. Powers, of the Forty-fourth Precinct; Sergt. Cornell, of the Forty-second; Sergt. Thomas Wright, of the Forty-ninth, and five patrolmen belonging to different districts.

Supervisor Booth, of the Fourth Ward; Col. E. L. Molineux, of the One Hundred and Fifty-ninth regiment New-York Volunteers, wounded in the battle of Indian Bend, La., and still in the service; Maj. Oliver T. Beard, late of the Forty-eighth regiment New-York Volunteers; Luther B. Wyman, Esq., one of the Directors of the Academy of Music, besides a number of prominent Ward politicians, were elected.

A woman named Regina Hochstadter, residing in the Eighth Ward, was drawn as a conscript. It appears that she keeps a small store, and when the enrolling officer called for the name of her husband, she told him he could take it from the sign much better than she could tell him. Her name being on the sign instead of that of her husband, it was placed on record and she was duly enrolled and drafted.

Mr. James Smith, a barkeeper in the Franklin House, has three sons. One has served in the Excelsior Brigade since its organization, another is in the army corps of Gen. Foster, in North Carolina, and the third was drafted on Monday.

Messrs. Husted & Carll, carpet dealers, have in their employ about 25 men. Of these, nine have thus far been drafted, including Mr. Carll, one of the proprietors.

The Second Connecticut Battery, of six rifled cannon, arrived in the City yesterday and encamped on a vacant lot in Myrtle-avenue, near Broadway.

THE BROOKLYN DRAFT LOAN.

The Comptroller of Brooklyn has advertised for proposals for the half million dollar loan authorized by the Common Council, to mitigate the severity of the draft. Bids are to be received for ten days, by which time it is expected that the money will be in the treasury.

A meeting of the Common Council Committee on the subject of the draft loan was to have been held yesterday, but no quorum appearing, no business could be transacted. A meeting of the Board will be held this evening for the purpose of acting upon the recommendations of the Committee in regard to regulations for distributing the money.

The Exemption Ordinance—Action Under It.

The following correspondence has passed between the Comptroller and Col. Nugent.

City of New-York, Department of Finance, Aug. 31, 1863.

Col. Robert Nugent, Assistant Provost-Marshal-General, New-York City:

Dear Sir: I have the honor to inclose herein a copy of an ordinance adopted by the Board of Supervisors of this County, and approved by his Honor the Mayor, on the 28th inst., by which you will see that they are desirous to aid the Government in procuring the number of men needed to finish up the work of suppressing the rebellion.

In behalf of the County Substitute and Relief Committee, appointed by the Board of Supervisors on the 28th inst., I desire to learn from you what period of time will be allowed to persons drafted in this City, after they have been duly inspected and found liable to serve, in which to procure acceptable substitutes or pay the sum required to procure their exemption from the draft.

It is most respectfully suggested that the time allowed for the purpose above-named be as long as may be consistent with your instructions to allow, in order that we may be enabled to obtain the men.

An early reply hereto is solicited.

Very respectfully your ob'dt servant,
MATTHEW T. BRENNAN, Comptroller.

Office of the A. A. Provost-Marshal General, Southern Division of New-York, New-York, Sept. 1, 1863.

Matthew T. Brennan, Esq., Comptroller City of New-York:

Dear Sir: I have the honor to acknowledge the receipt of your communication of 31st ult., in which you desire to know what period of time will be allowed to persons drafted in this City, after they have been duly inspected and found liable to serve, in which to procure acceptable substitutes or pay the sum required to pay their exemption from the draft.

In reply, I would say that orders have been issued to the Provost-Marshals to defer to the last the cases of such drafted men as are members of the Fire Department, and every reasonable indulgence will be granted to such as are accepted to enable them to avail themselves of the provisions of the ordinance adopted by the Board of Supervisors.

I am, Sir, very respectfully,
Your obedient servant,
ROBERT NUGENT,
Col. 69th N. Y. Vols., and Act. Assist. Provost-Marshal General.

How Col. Nugent can order the Provost-Marshals to defer the cases, we are at loss to know. The Provost-Marshals have no more authority than the Commissioners or Surgeons, and it is for a majority of the Board of Enrollment, as the law instructs, to decide on all cases which may come before them.

The Comptroller has issued the following notice:

No application for exemption will be received until the District Board of Enrollment have examined and accepted the person drafted into the United States service, under the act of Congress approved March 3, 1863. The certificate of acceptance by the District Board of Enrollment must be presented to this Committee.

GEO. OPDYKE, Mayor,
MATTHEW T. BRENNAN, Comptroller,
ELIJAH F. PURDY,
ORISON BLUNT,
WM. M. TWEED,
WM. R. STEWART.

The Committee of the Fire Department, composed of Henry Wilson, Fire Commissioner; John S. Giles, Treasurer of the Department; A. J. Delatour, President of the Department; Zophar Mills, Trustee, and John Decker, Chief Engineer, meet at Fireman's Hall, every night, to hear claims for exemption. Mr. Decker has insisted on the most thorough examination of the claims, and the Board fully concur with him. Applicants have to come provided with the certificate of the officers of their companies as to their being active firemen, or exempts doing active duty, and these certificates are indorsed by the Committee only after a thorough examination of the books, comparing badges, names, &c. The plan adopted is one which will effectually prevent any imposition, and discharge from the draft only those in the Department who are entitled to discharge. The Committee do not intend to allow a single unworthy member of the Department to avail himself of the ordinance.

The Committee of Supervisors appointed under the Substitute and Relief ordinance met yesterday, and perfected all their arrangements for business. They adopted certain rules and forms of application, which are duly advertised, so that all interested may fully understand their plans.

The Committee meet at 9 A. M. every day, in the Supreme Court Room, first floor, Nos. 71 and 73 Duane street, and will be ready for business to-day.

Notice to Firemen.

The following notice has been issued by the Committee appointed by the Fire Department relative to the draft in the Fifth and Seventh Congressional Districts:

Firemen's Hall, Sept. 1, 1863.

To all Drafted Firemen in the Fifth and Seventh Congressional Districts:

You are hereby notified to report to the following Committee, at Firemen's Hall, this (Wednesday) evening, at 7½ o'clock. You will bring with you the notice served by the Provost-Marshal of your District.

By order.
HENRY WILSON, Chairman.
Peter Y. Everett, Secretary.

Exemptions in the Sixth District.

The number of cases disposed of by the Board of Enrollment of the Sixth, yesterday, were 94.

No. of drafted men held	39
No. of substitutes accepted	7
No. who paid commutation	3
No. exempt for disability	25
No. exempt for all other causes	30
No. sent to general rendezvous	7

A much greater number might have been disposed of in this District if Dr. Powell had more assistance, as the number claiming exemption on account of physical disability is very large. The greater part of the Doctor's time is taken up with examinations in his private room. Consequently, the business of the Board is delayed, as his presence is necessary and valuable from his large military experience. Several times during the day that Commissioner La Mont was left entirely alone, and was compelled to lay many cases over that might have been disposed of had the other members of the Board been present. There was a great deal of dissatisfaction expressed by working men on account of having to wait and lose their time, some having been in waiting two or three days, and many feared that they would lose their situations if compelled to wait much longer. The Commissioner desirous of disposing of such cases devoted nearly an hour to them after the adjournment of the Board.

The attention of the Board of Enrollment of this District is called to a Mr. Stephens, one of their subordinates, whose tone and demeanor toward parties claiming exemption, or having other business with the Board, is a subject of serious complaint. There should be but one course pursued by the officials, and that a courteous and unassuming one.

THE FOURTH DISTRICT.

Claims for exemptions in the Fourth District were received yesterday. They were of the usual mongrel character, a large number of aliens being represented.

The Exemption Loan.

The following were the subscriptions to the Exemption Loan made yesterday:

F. E. Hutchausen (paid)	$4,000
Peter Cooper	10,000
Claus Dossher	3,000
Margaret McGonigal (paid)	300
Ed. A. Fraser (paid)	1,000

Phillip Frank	1,000
Isaac V. Fowler (paid)	1,000
Total	$126,300
Previously received	654,300

The Insurance Companies are expected to take up their promised one million of subscription to-day, and the whole amount, it is expected, will be speedily subscribed. To-morrow it is expected will close the books.

READ AND REFLECT.

Make sure of Health. "But how?" you ask
We answer, 'tis an easy task.
Strengthen the Stomach, and sustain
The Nerves, the servants of the brain.
The Liver keep in active play
And *regulate*, from day to day.
Each organ aid, on Nature's plan,
Brace and refresh the inner man,
And like a watch, that's kept in chime
By constant care, with railroad time,
The system's tone and strength renew,
And thereby cheer the *spirits*, too.
"How," you inquire, "can this be done?
This Victory o'er Disease be won?"
"Hostetter's Bitters," we reply,
Is Health's supreme protection—try!

As a means of regenerating the disordered and enfeebled system, regulating every function of the internal organs, reviving the depressed spirits, invigorating the constitution, and prolonging life, no medicinal preparation, either of the past or the present time, has been so completely and universally successful as

HOSTETTER'S CELEBRATED STOMACH BITTERS.

Against the vapors foul prepare,
That fever-taint the heavy air,
Drink not unmixed the water found
In prairies, woods, or marshy ground.
If sedentary toil you ply,
Nature you must assist—or die—
For when debarred from exercise
For *artificial aid* she cries.
Medicine's grand purpose and intent
Is threatened evil to *prevent*:
And if you'd be relieved or spared
From ills that crush the *unprepared*,
Hostetter's Bitters use—for note
They are the surest antidote.

To set at defiance the miasma of unhealthy soils, the poison of unwholesome water, the effluvia of crowded workrooms and factories, and the baneful influence of sedentary employments, it is only necessary to be forearmed with

Dyspepsia's pangs, that rack and grind
The body, and depress the mind;
Agues, that as they go and come,
Make life a constant martyrdom;
Colics and dysenteric pains,
'Neath which the strong man's vigor wanes,
Bilious complaints, those tedious ills,
Ne'er conquered yet by drastic pills;
Dread diarrhea that cannot be
Cured by destructive mercury;
Slow constitutional decay
That brings Death nearer, day by day;
Nervous prostration, mental gloom—
Heralds of madness or the tomb;
For these—though mineral nostrums fail—
Means of Relief at least we hail,
Hostetter's Bitters—medicine sure,
Not to *prevent*, alone, but *cure*.

In dyspepsia, fever and ague, bilious complaints, constitutional and nervous debility, constipation, seasickness, spasms, and in all complaints of Man or Woman, proceeding from casual or inherent weakness of the body, the one great remedy and restorative is

HOSTETTER'S CELEBRATED STOMACH BITTERS.

To wanderers on sea or land,
From Polar shore to Tropic strand;
To households lone, in regions new,
And dwellers in great cities, too;
To soldiers in camp, fort and field,
Who need against disease a shield;
To miners, California bound,
And tillers of wet, marshy ground;
To feeble wives of fragile mold,
To young and middle-aged, and old
To those in health, who would enjoy
Heaven's best gifts without alloy;
To all the strengthless, weak and pale,
Who droop, yet know not what they ail,
Hostetter's Bitters we present
As Health's most potent element.
